TCW216 - 2 pcs - MASTER TL-D - 36 W - HF Performer

Pacific TCW216 is a functional dust-, jet-, shock- and vandalproof luminaire, and can accommodate both TL-D and TL5 (16 mm) fluorescent lamps. The cover is fixed to the housing by means of an innovative concept using integrated fixing points to avoid external lockers. There is a choice of different standard versions available. The luminaire can be mounted individually or in-line with easy 'click' installation. Flexibility is ensured with a choice of fixing points and different cable entries. The TCW216 can also be suspended from Philips TTX410 light-line systems.
